

Exploration Framework Atlas Series:

Volume 2: Venezuela

by

Tectonic Analysis, Ltd

James Pindell

and

Lorcan Kennan
Stephen Barrett
Roger Higgs
Tomas Villamil
Johan Erikson
Dr. Sam Algar

Tectonic Analysis, Ltd.

Volume 1: Colombia

Volume 3: Ecuador-Peru-Bolivia

CONTENTS

TECTONICS, PALINSPASTIC BASE MAPS, AND PALAEOGEOGRAPHY

- 1a Digital Topography.
Introduction: Scope, methodology, major components, contributors.
- 1b Contents of the Atlas.
- 2a Plate tectonic context and introduction. Caribbean evolutionary model.
- 2b Plate kinematics, steady-state model for Caribbean-South American plate boundary.
- 3a Palinspastic restorations of North Andes and South Caribbean deformations.
- 3b End Jurassic, 25Ma and 12Ma palinspastic grids: base for palaeogeographic maps.
- 4a Triassic-Jurassic rifting, Cretaceous passive margin, possible Jurassic source rock.
- 4b Triassic-Jurassic palaeogeography and supporting text.
- 5a Cretaceous stratigraphy, correlation chart.
- 5b Cretaceous sequence stratigraphic X-sections, Western and Eastern Venezuela.
- 6a Berriasian-Barremian palaeogeography and supporting text.
- 6b Aptian palaeogeography and supporting text.
- 7a Early Albian palaeogeography and supporting text.
- 7b Middle and Late Albian palaeogeography and supporting text.
- 8a Cenomanian palaeogeography and supporting text.
- 8b Turonian-Coniacian palaeogeography and supporting text.
- 9a Santonian-Campanian palaeogeography, supporting text.
- 9b Maastrichtian palaeogeography and supporting text, onset of tectonism.
- 10a Passive margin to foreland transition in west, model of "anti-bulge" flexural basin.
- 10b Early Palaeocene palaeogeography and supporting text.
- 11a Late Palaeocene palaeogeography and supporting text.
- 11b Early Eocene palaeogeography and supporting text.
- 12a Early and middle Middle Eocene palaeogeography and supporting text.
- 12b Early Late Eocene palaeogeography and supporting text.
- 13a Latest Eocene to earliest Oligocene palaeogeography and supporting text.
- 13b Mid to Late Eocene sedimentation. Eocene unconformity and Falcon problem.
- 14a Mid to Late Oligocene palaeogeography and supporting text (proto-Mérida, etc.) .
- 14b Late Early Miocene palaeogeography and supporting text.
- 15a Text continued from Page 14b.
- 15b Late Middle Miocene Palaeogeography and supporting text.
- 16a Transtension and transpression in Eastern Venezuela/Trinidad.
- 16b Radical new interpretation of Furrrial-Pedernales-Central Range structure.
- 17a Seismicity and active tectonics.

ACKNOWLEDGEMENTS: We are grateful to Drs. Tomas Villamil, Johan Erikson, and Sam Algar for their long-standing input to various parts of the syntheses and conclusions further developed and presented herein. Also, we thank PDVSA, Petrotrin, and Ecopetrol for their extensive professional discussions and interactions on pertinent information and topics considered herein.

Appropriate uses of this atlas and its digital files are defined by the license agreement between Tectonic Analysis Ltd. and licensees.

TIMING OF MATURATION/MIGRATION (OF CRETACEOUS SOURCE ROCKS)

- 17b Hydrocarbon Systems: Source rocks, Migration of foredeep basin and oil kitchen.
- 18a Kitchen/migration maps: early late Eocene, late Oligocene.
- 18b Kitchen/migration maps: early Miocene; late Miocene to Recent.

BASIN SUMMARY CHARTS

- | | |
|-------------------------------|---------------------------------------|
| 19a Barinas Basin | 19b Guarico Basin |
| 20a Maturín Basin | 20b Western onshore Maracaibo Basin |
| 21a NE Maracaibo Basin | 21b SE Maracaibo Basin |
| 22a West Falcón Basin | 22b East Falcón Basin and La Vela Bay |
| 23a Apure Basin | 23b Gulf of Paria Basin |
| 24a Delta Amacuro, E. Maturin | 24b Central/Southern Trinidad Basin |

PALAEOENVIRONMENTAL INTERPRETATION OF KEY SECTIONS: INPUT TO MAPS

- 25a Maracaibo section location map, chronostratigraphic chart, forebulge model.
- 25b Maracaibo fence diagram; Section 1, Guasare, La Sierra fms at Rio Negro roadcut.
- 26a Section 2, Los Cuervos, Mirador fms at Tarra Anticline; Section 3, Orocue Gp at Río Lobatería; Section 4, Orocue Gp and Mirador Fm at Río Lobatería.
- 26b Section 5, Catatumbo and La Cope fms, Vega de A.; Section 6, Palmar Fm at Río Chama roadcut; Section 7, Palmar Fm, Río Chama valley.
- 27a Section 8, "Tambor" unit at La Azulita; Section 9, Tambor unit and Jaji; Section 10, Mucujún Fm near Mérida; Section 11, El Cobre Fm at Río Quiú.
- 27b Section 11, El Cobre Fm at Río Quiú, cont. Section 12, Paguey Fm at Altamira; Section 13, Misoa and Caús fms at Valera; Section 14, Misoa Fm at Agua Viva.
- 28a Section 15, Misoa Fm at Silboca Quarry; Section 16, Betijóque Fm at Betijoque
- 28b Introduction to the Maastrichtian to Cenozoic strata of Eastern Venezuela.
Section 1, Tinajitas member and Los Jabillos basal unconformity at Tinajitas syncline;
Section 2, Caratas and basal Los Jabillos Fms in Rio Querecual.
- 29a Detailed log of Rio Querecual Los Jabillos Fm.
- 29b Section 3, Capaya Fm at Rio Amaná Valley roadcut; Section 4, Caratas and Los Jabillos Fms on Cerro Corazon; Section 5, San Juan and Vidoño Fms on Cerro Voladero road.
- 30a 6, Vidoño and Caratas Fms in Rio Guarapiche; 7, Vidoño to Carapita Fms, Rio Aragua;
8, San Juan Fm in Rio Taguaya valley roadcut.
- 30b Discussion of stratigraphy and the "Naricual Question".

CONTENTS OF CD-ROM

- A. All maps, figures, texts of this atlas, PDF and CANVAS format
- B. Measured sections and environmental assessments, Serranía del Interior Oriental
- C. Expanded texts and figures of complementary material, including expanded discussion of stratigraphic sections in east and west Venezuela, new biostratigraphic dating and bibliography.

Extras on Venezuela Exploration Framework Atlas CD-ROM:

MARA_LGS.pdf

Maracaibo area logs - full description, locality details, bibliography - complements logs in atlas

PALYAGES.pdf

Our new palynological age data for the Maracaibo area

EAST_LGS.pdf

Selected Serrania area logs (our field studies) - full description, locality details, bibliography - complements logs in atlas (11 pages)

VEN_PET.pdf,cwk

pdf and Clarisworks versions of our sandstone petrography database (164 samples)

SERRANIA.pdf

Text and figures for our reworking of Ministry logs for Serrania (133 pages)

CRT_LGS1.PDF

Ca. 1 cm = 10 m logs, Wide format (915 mm) pages with our annotation, revised correlations, new stratigraphic ages, facies interpretation for Cerro El Paraiso, Isla Chimana Grande (West), Isla Venados, Peninsula Pertigalete (West) La Puerta, Quebrada Güirintal, Quebrada Los Altos, Quebrada Rincon, Rio Caripe (S.W.), Rio Perdido, Rio Capiricual

CRT_LGS2.PDF

Alto El Zamuro, Cerro Canton, Cerro Copei, Cerro La Paloma, Isla Chimana Grande (E), Isla Picuda Grande

CRT_LGS3.PDF

N.E. de Tacata, Quebrada Los Chorros-Rio La Maravilla, Rio Caripe (S.E.) Rio Querecual, Rio Triste-Quebrada Rincon, Valle grande-Las Chaguaramas, Valle grande-Trapiche Santa Rosa

TER_LGS1.pdf

Cerro Canton, Cerro Limon-Cuspural, El Banco, Quebrada Teresen, Rio Colorado

TER_LGS2.pdf

Alto La Paloma, Cerro Los Caballos, Quebrada La Salada, Rio Aragua (East), Rio Aragua (West), Rio Punceres, Sinclinal de Tinajitas (North), Sinclinal de Tinajitas (South)

TER_LGS3.pdf

Cerro Los Godos, Quebrada Pegua, Rio Amana-Rio Oculito, Rio De Oro (North), Rio De Oro (South), Rio Oregano, Rio Capiricual Este, Rio Guario

BIBLIO.txt

Text only version of bibliography (3826 entries)

Ven_biblio_95

Endnote bibliography for Venezuela, up to 1995
